2024

FIRST IN WORLD
Carrier Network-
as-a-Service
for ISPs

A man with a beard and short brown hair, wearing a dark blue suit jacket over a light blue button-down shirt, is smiling and looking off to the side. He is standing against a solid orange background. The image is framed by a white border on the left and bottom.

We design networks for
simplicity, to deploy and
operate with ease.

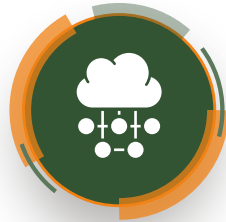

Focus on your customers and your time.

Let FMT do the rest...

ONLY FOR PEOPLE WHO ARE **SERIOUS** ABOUT THEIR NETWORKS

FMT's core network provides 100% **guaranteed availability**, swiftly rerouting live traffic under failure conditions. Engineered around a smart core, our **low-cost network** harnesses analytical insights and orchestration to minimise technical burdens and maximise resource efficiency. This approach significantly **enhances user experiences and service value**.

Full-spectrum connectivity solutions enhance your service capabilities, allowing us to efficiently support and refine your network. Leveraging our extensive experience and knowledge in the field, we ensure **impeccable service through shortest-path connections to global data exchanges**, delivering fast and reliable network performance.

Our **advanced maintenance and national support services** also grant immediate access to expert engineers, fostering **direct engineer-to-engineer interactions** for superior troubleshooting and uptime.

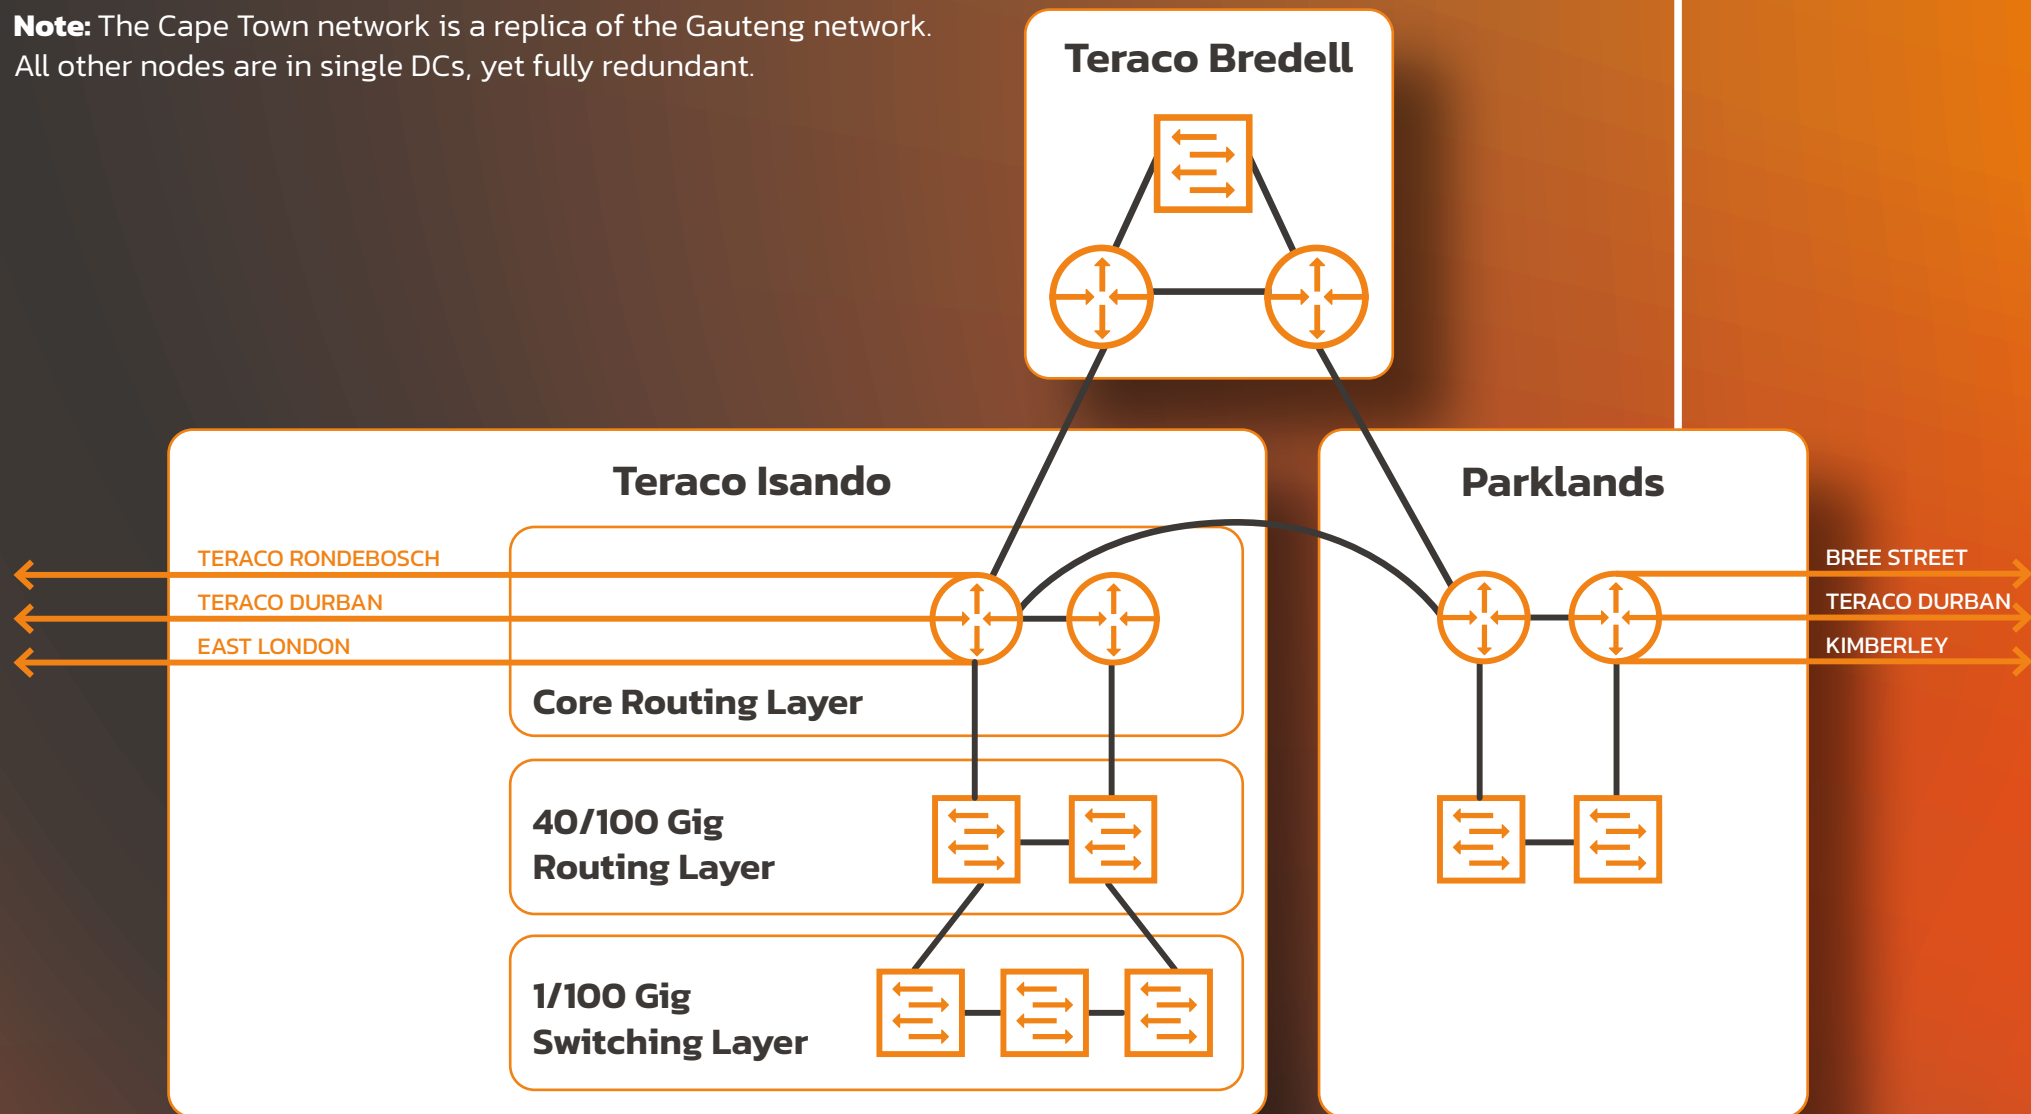

Plus, we offer **flexible contracts** that allow **bandwidth scaling** at any stage, ensuring adaptability to your needs.

"Simplicity is the ultimate sophistication" – LEONARDO DA VINCI

OUR GAUTENG NETWORK

Note: The Cape Town network is a replica of the Gauteng network.
All other nodes are in single DCs, yet fully redundant.

A woman with curly hair is shown in profile, looking upwards. The background is a solid orange color. The text is positioned to the right of her head.

Engineered for simplicity, built for resilience.

If you're serious about delivering world-class connectivity, you need a carrier partner who's just as committed to performance as you are.

At Fixed Mobile Telecoms (FMT), we design our networks around simplicity and reliability – so you can scale, deliver, and focus on what matters most: your customers.

When it comes to keeping your network connected across South Africa, our National Long Distance (NLD) backbone does the heavy lifting. Spanning the country with diverse, fully redundant routes, our NLD infrastructure guarantees 100% bandwidth availability – even under failure conditions.

Whether you're linking metros or remote data centers, we give you seamless capacity, flexible scaling, and access to real engineers who actually understand your needs.

**IT'S CARRIER CONNECTIVITY – REFINED FOR CARRIERS WHO DON'T
COMPROMISE.**

OUR NATIONAL NETWORK

100%

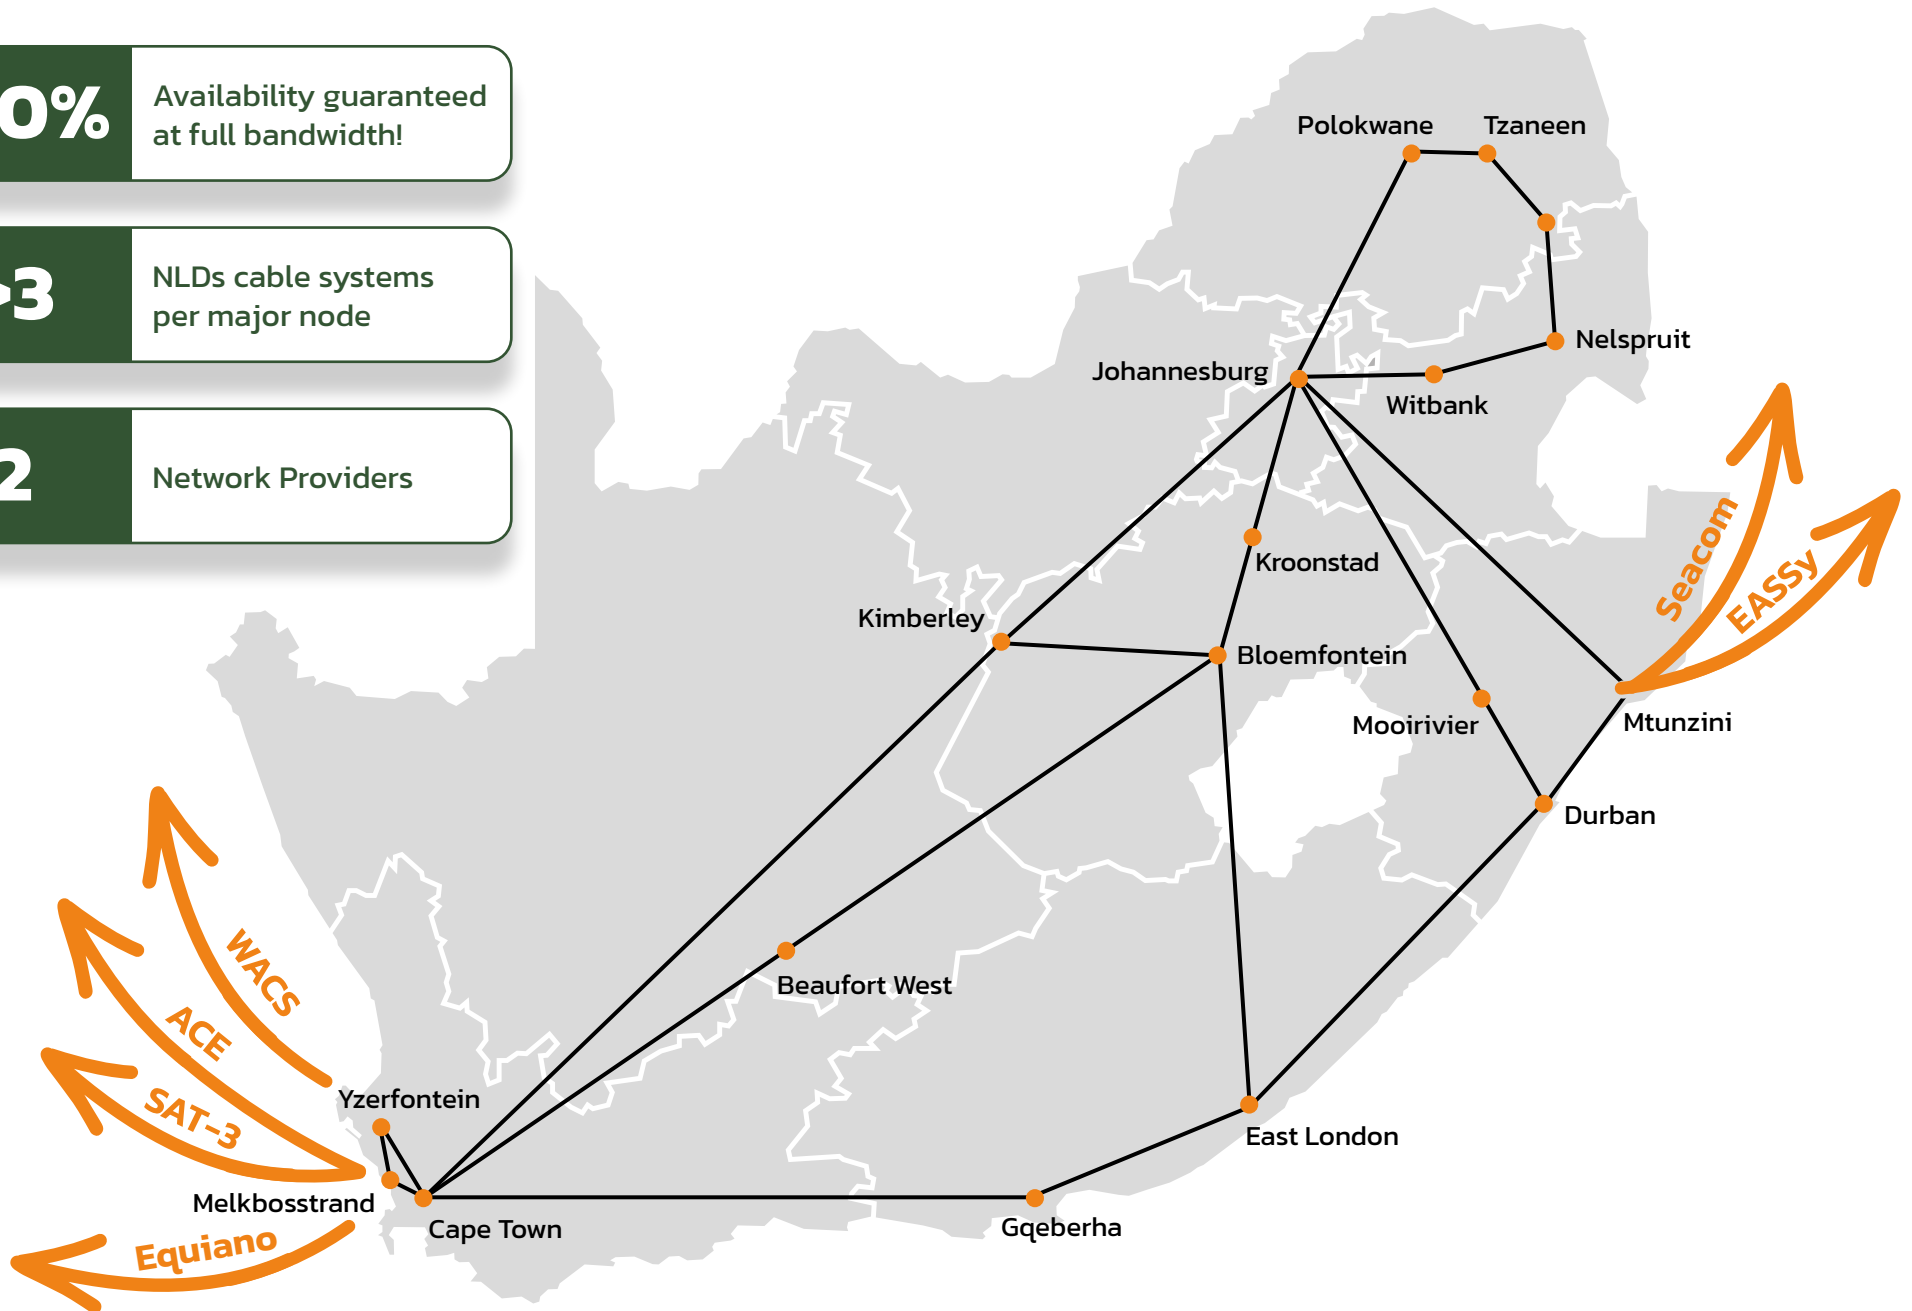

Availability guaranteed
at full bandwidth!

>3

NLDs cable systems
per major node

2

Network Providers

100% availability and built to go the distance.

Our IP Transit (IPT) offering gives you direct access to global internet routes through six active undersea cable systems. That means low-latency, high-capacity routes with guaranteed uptime—so your traffic always takes the shortest, fastest path.

NO BOTTLENECKS. NO GUESSWORK. JUST CLEAN, CONSISTENT PERFORMANCE, DAY IN AND DAY OUT.

AFRICAN UNDERSEA CABLES WE USE

100%

Availability guaranteed
at full bandwidth!

our IPT pool

WEST COAST:

SAT-3/SAFE	800 GIGABITS	Active
WACS	14.5 TERABITS	Active
ACE	20 TERABITS	Active
Equiano	144 TERABITS	Active

EAST COAST:

EASSy	10 TERABITS	Active
Seacom	12 TERABITS	Active

PEOPLE YOU CAN **TRUST**

We understand networks. We understand how to align with your needs. Since 1997, we've had the people who delivered South Africa's first broadband satellite Internet, disrupted the corporate ISP market, and revolutionised the Internet in 2009 – because we're all about disruptive innovation that creates business opportunities.

From Melkbosstrand to Polokwane and everything in between, Fixed Mobile has got you and your customers covered.

Put us to the test. We're here to help you.

OUR CRAFT • YOUR EDGE

A man with grey hair and glasses, wearing a teal blazer over a white shirt, holds a black tablet. A woman with dark hair in a ponytail, wearing a light blue blazer over a white shirt, points at the tablet. They are both smiling and looking at the screen. The background is a solid orange color with a faint, blurred pattern of geometric shapes.

We are more
than a provider.
**We are a partner
for life.**
